SECTION 106 REVIEW PROCESS

If your project does have the potential to physically impact historic properties or sites, then a Section 106 review must be incorporated into the project. Physical impact could include anything from digging a post hole, to installing a sign, to breaking ground on new construction, to restoration and rehabilitation on a historic structure. SHPO has 30 days to review your project, so project details should be sent to them as soon as possible. Please follow the steps below to make sure that your project is in compliance and attach any necessary documentation to your Grant Application.

Step 1: Submit an email to the State Historic Preservation Office including the following information:

- Email Address: oha.revcomp@alaska.gov
- Subject Line: Cultural Resource Presence/Absence Info Request
- Message Body:
 - Project Description
 - State this is a potential KMTA NHA grant project
 - Include location information (e.g., a map or lat/long to help SHPO find the location to check for cultural resources)

SHPO has 30 days to respond. If your project has the potential to impact historic properties or sites, they will let you know if there is more work to be done.

Step 2: Has SHPO responded to your request in 30 days? Yes No

If yes, include their response in your application as an uploaded attachment.
If no, please follow up with SHPO to inquire about the status of your request.

Step 3: If SHPO determines that your project has the potential to impact historic properties or sites, please complete the following:

- Contact Development Manager Jessa West to plan on how to proceed with the review. In the meantime, complete and submit the grant application with the above documents (email to SHPO, and their response). While Jessa will help direct you on next steps, you can expect to be asked to take the following actions:
 - Consult with NPS Region 11 [Cultural Resource Manager](#)
 - Enlist the services of an archeologist contracted by KMTA to do a site visit and write a letter detailing their findings
 - Complete the Section 106 [Project Review Form](#) and submit to SHPO, including the findings of the archeologist and any input from NPS staff as attachments
 - Wait for SHPO's response to your submitted Project Review form to take the appropriate next steps. SHPO has 30 days to respond.
 - *A project review is SHPO's opportunity to concur (or not concur) with an agency or individual's findings/recommendations for a project (e.g., no potential to cause effects, no historic properties affected, no adverse effect, or adverse effect). This is done after background research, fieldwork, report writing, etc. has been completed.*

Step 4: If your project was found to have an Adverse Effect on cultural resources, please do the following:

- Contact KMTA to work with the appropriate NPS staff and contractors to create a mitigation plan.
- Create a Memorandum of Agreement (MOA) with SHPO
 - *When historic properties may be harmed, Section 106 review usually ends with a legally binding agreement that establishes how adverse effects will be avoided, minimized, or mitigated.*
